

Department
for Education

MUSIC AND DANCE SCHEME (MDS): THE MANUAL

NOTES OF GUIDANCE FOR SCHOOLS, CENTRES FOR ADVANCE TRAINING AND PARENTS

This guidance is provided for organisations participating as providers in the National Grants Scheme from the academic year 2024/25. It covers the determination of whether applicants are eligible to hold a grant, information on relevant income and how to calculate and extra information on elements of the application form (MD1/NGMD1).

The administrative and financial framework for the scheme is laid down in a document entitled the “Music and Dance Scheme” made under arrangements pursuant to sections 14 to 17 of the Education Act 2002.

The Department (DfE) has specified, in relation to the National Grants Scheme, that application form MD1/NGMD1 must be completed by parents for the purposes of assessing eligibility under the scheme. The MD2/NGMD2 stencil has been specified for use by schools/CATS in claiming grant from the National Grants Administration Centre (NGAC) on behalf of the children/young people holding the national grants.

The MDS national grants are for young musicians and dancers with exceptional potential and dedication. The grants are for those children and young people who do not have the financial means to access the best available training. In making such grants available to individual students, the needs of the individual child must be put first. These needs should be spelled out by CATs in individual training plans (ITPs), and will have to be agreed by the student, teachers, parents and providers.

INTRODUCTION

1. The aim of the Music and Dance Scheme (MDS) is to help identify, and assist, children with exceptional potential, regardless of their personal circumstances, to benefit from world-class specialist training as part of a broad and balanced education, which will enable them, if they choose, to proceed towards self-sustaining careers in music and dance.
2. The Department for Education provides grants, pursuant to Section 14 Education Act 2002, to the schools and Centres for Advanced Training (CATs) set out below, in respect of:
 - A. eligible means-tested, contribution-based, fee remission and
 - B. eligible travel and uniform grants provided by the school,for the education and training of exceptionally talented children and children with exceptional potential.
3. Fee, and travel and uniform grants, provided by the school up to the amounts set out in their individual Grant Offer Letters, calculated by reference to the parents' relevant income, will be eligible where the pupil meets the age and nationality/residency conditions set out below.
4. What will be considered 'relevant income' for means-testing purposes of the scheme is set out below.
5. The scheme covers the fee, and travel and uniform grants, up to the amounts set out in individual Grant Offer Letters, provided by the following schools and CATs:

Schools

Music

- Chetham's School of Music (Manchester)
- The Purcell School (Bushey, Hertfordshire)
- Wells Cathedral School (Somerset)
- Yehudi Menuhin School (Surrey)

Dance:

- Elmhurst Ballet School (Birmingham)
- The Hammond School (Chester)
- Royal Ballet School (London)
- Tring Park School (Hertfordshire)

Centres for Advanced Training

Music

- Aldeburgh Young Musicians (Suffolk)
- Royal Birmingham Conservatoire (Birmingham)
- Centre for Young Musicians (London)

- Guildhall School of Music & Drama (London)
- Royal Academy of Music (London)
- Royal College of Music (London)
- Royal Northern College of Music (Manchester)
- Sage (Gateshead)
- Sheffield Music Academy (Yorkshire)
- South West Music School (Bristol)
- Trinity Laban Conservatoire of Music and Dance (London)
- Yorkshire Young Musicians (Leeds)

Dance

- Dance East Academy (Ipswich)
- FABRIC (East Midlands, West Midlands and South Asian national strand)
- Dance City Academy (Newcastle)
- London Contemporary Dance School (London)
- Lowry Dance (Manchester)
- Swindon Youth Dance Academy (Wiltshire)
- Trinity Laban Conservatoire of Music and Dance (London)
- Yorkshire Young Dancers (Leeds)

A. A pupil may only hold one MDS-funded place. That is to say, a pupil may not hold MDS-funded places at both a school and a CAT, or at two CATs. This applies regardless of discipline (e.g. a pupil may not hold two MDS-funded music places, or an MDS-funded music place and an MDS-funded dance place).¹

AGE ELIGIBILITY

6. To be eligible for an aided place in an academic year, a pupil must have reached the age of 8 for music schools and 11 for dance schools on or before the 31st August following the beginning of the first school year in which the pupil takes up an aided place.
7. On first entry to CAT training, a pupil should not be over the age of 16 on 1st September at the beginning of the school year in which they commence training. Should a CAT wish to offer a place to a child who will be over the age of 16 when they commence training, they should contact DfE: consideration of such applicants will only be made in exceptional cases. No pupil should be over the age of 17 on 1st September at the beginning of the school year in which they commence training. Please note that if a child over the age of 16 is simply transferring from one CAT to another, there is no need to contact DfE for permission. What matters is the child's age on first entry to CAT training, not on first entry to your institution. This paragraph (Paragraph 7) does not apply to pupils with disabilities.

¹ This point was clarified in the manual in academic year 2023/24. As such, this rule does not affect the funding eligibility of pupils who started two MDS-funded places before that year.

8. Pupils are not eligible for grant support after the end of the school year in which they reach the age of 20. This condition does not apply to pupils with disabilities at the CATs only, who will not be eligible for grant support after the end of the school year in which they reach the age of 25.
9. CAT pupils should be full-time registered pupils at a maintained or independent school or college in the UK or be “home educated” (i.e. educated at home by parents or guardians). NGMD1 asks for details of the school or college the child will be attending from September 2024. This condition does not apply to pupils with disabilities aged over 18 at the CATs only.

RESIDENCY ELIGIBILITY

10. To qualify for an aided place, the child must:
 - A. To take up an aided place at a school, have been ordinarily resident in the British Islands throughout the two-year period immediately preceding 1st January in the calendar year in which the pupil will take up an aided place, **or**,
 - B. To take up an aided place at a CAT, have been ordinarily resident in the British Islands for a period of three years immediately before taking up the grant; **or**
 - C. be an EEA national –
 - i. who has, to take up an aided place at a school, been ordinarily resident in the EEA or Switzerland throughout the two-year period immediately preceding 1st January in the calendar year in which the pupil will take up an aided place, or, to take up an aided place at a CAT, been ordinarily resident in the EEA or Switzerland for a period of three years immediately before taking up the grant; **and**
 - ii. is a child who is, or whose parents have, been lawfully resident in the UK before the end of the transition period on 31 December 2020 and who are covered by the [citizens' rights provisions](#) under the Withdrawal Agreement; **or**
 - D. be a refugee or the child of a refugee who has not been ordinarily resident outside the British Islands since the child (or parents, as the case may be) was recognised as a refugee or granted leave to enter or remain in the British Islands; or
 - E. be a child granted special “Calais Leave” following their transfer from Calais

in October 2016;² or

- F. be a child who relocated to the UK under section 67 of the Immigration Act 2016³; or
 - G. be a child supported through the Ukraine Family Scheme, Ukraine Sponsorship Scheme or Ukraine Extension Scheme.
 - H. be a child from Ireland living in the UK, Islands or Ireland whose right to study and to access benefits and services is preserved on a reciprocal basis under the Common Travel Area arrangement.
11. A child shall be treated for the purposes of paragraphs 10(a) and 10(b) as having been ordinarily resident in the British Islands or in the European Economic Area if he would have been so resident but for the fact that his parent is or was temporarily employed outside the British Islands or the European Economic Area or Switzerland during any part of the period mentioned in those paragraphs.
 12. The term "British Islands" refers to: The United Kingdom, the Isle of Man and the Channel Islands.
 13. Current MDS students looking to continue into academic year 2024/25 (that have not been living in the British Islands for 2 years) will need "settled" status or "pre-settled" status to remain eligible.
 14. For new MDS students that have not been resident in the British Islands, they will need "settled" or "pre-settled" status. If they have not received this status EU students will be treated as having the same status as non-EU students.

HOME ADDRESS

15. The MD1/NGMD1 form requests the child's home address. This should be the address of the parents with whom the child resides (as defined in the section headed 'parents' below).

UNIQUE PUPIL NUMBER (UPN)

16. The unique pupil number (UPN) is a 13-character code that identifies pupils. Allocated on first entry to a school, the UPN is generated using the nationally specified formula and is expected to remain with a pupil throughout their school career regardless of any change in school or local authority. Please read the DfE unique pupil numbers

² The term 'Calais leave' is a special type of leave granted to those were brought to the UK as part of the Calais clearance exercise between October 2016 and July 2017, who were under the age of 18 at the time, and who had recognised family ties in the UK

³ S67 provided for arrangements to relocate to the United Kingdom and support a specified number of unaccompanied refugee children from other countries in Europe

guidance carefully here <https://www.gov.uk/government/publications/unique-pupil-numbers> for more information.

17. All pupils that have ever been in the state sector will have a UPN. Although there isn't a statutory duty placed on independent schools to maintain or allocate UPNs many choose to do so.

18. As part of the MDS, we expect all independent schools to ensure that pupils that are supported via MDS have UPNs (and maintain them). Instructions on how to retrieve pupils' UPNs from their previous schools via the common transfer files (CTF) and, in those rare cases where a UPN does not already exist already, instructions on how to generate UPNs are detailed in the [DfE guidance](#).

19. For CATs that are already members of the Learning Records Service (LRS), they should be able to identify UPNs of pupils aged 14+ by searching for them.

How do I identify a pupil's UPN?

20. The best way to identify this depends on the particular situation of the pupil. Common scenarios are outlined below.

Current situation	Identifying your UPN
A pupil currently on an MDS-assisted place at an independent school that <i>is</i> part of the MDS.	<ul style="list-style-type: none"> A pupil's current school should be able to provide this for you as set out in the DfE guidance (see Section 5).
A pupil currently at an independent school that is <i>not</i> part of the MDS.	<ul style="list-style-type: none"> A pupil's current school should be able to provide this for you as set out in the DfE guidance (see Section 5).
A pupil currently on an MDS-assisted place at a CAT	<ul style="list-style-type: none"> The CAT may be able to provide this to you if they currently have access to the Learner Record Service (LRS). If not, one of the other situations may apply.
A pupil currently at a state-funded school in England or Wales	<ul style="list-style-type: none"> If your child is moving to an independent school on an MDS-assisted place, the new school can request for the UPN via the common transfer file (CTF). A CAT may be able to identify this for you. For example, <i>if</i> they are a member of the Learner Record System (LRS) and your child is aged +14 then they may be able to use LRS to identify the UPN. Alternatively, parents can request the pupil's UPN from their child's current school (see DfE guidance).

An overseas pupil	<ul style="list-style-type: none"> • Usually a pupil from overseas will not have been allocated a UPN but there are exceptions to this as set out in the DfE guidance. • If a pupil is moving to a state-funded school then that state school will issue a UPN. The parent can then request this from the school and provide it as soon as possible. You can refer the school to DfE guidance on UPNs when making the request. • If a pupil is moving on an MDS-assisted place to an independent school and has never been in the state system (or at an independent school that had a policy of generating UPNs) then the independent school can generate a UPN. Instructions for how to do this is set out in the DfE guidance.
A home educated pupil	<ul style="list-style-type: none"> • If a pupil has ever been in the state-funded education system (or at an independent school that had a policy of creating UPNs), they will have a UPN that their previous school may be able to provide upon request. You can refer the school to DfE guidance on UPNs when making the request. • If a pupil is moving on an MDS-assisted place to an independent school and has never been in the state system (or at an independent school that had a policy of generating UPNs) then the independent school can generate a UPN by following the DfE guidance.

EQUALITIES MONITORING

Ethnic origin

21. Places at schools and CATs are awarded on merit and grants are awarded to all those who meet the eligibility criteria. Parents are asked to declare the ethnic origin of their child; this is optional and purely for monitoring purposes. The options will be recorded as:

White

- White British
- Irish
- Gypsy/Roma
- Traveller of Irish heritage
- Any other White background

Mixed / Multiple ethnic groups

- White and Black Caribbean
- White and Black African
- White and Asian
- Any other Mixed background

Asian / Asian British

- Indian

- Pakistani
- Bangladeshi
- Chinese
- Any other Asian background

Black / African / Caribbean / Black British

- Black African
- Black Caribbean
- Any other Black background

Other ethnic group

- Arab
- Any other ethnic group

Disability

22. Parents are asked to declare whether or not their child has a disability. Again, this is optional and for monitoring purposes.

PARENTS

23. Any reference in this document to the parents of an aided pupil, a grant holder, or to a child in connection with the aided pupil scheme, or a child in connection with the national grants scheme, is a reference to, at the time that the relevant income is calculated (the date on which the Application Form is signed):
- A. the child's father, or a parent by virtue of section 42 or 43 of the Human Fertilisation and Embryology Act 2008⁴, and mother where –
 - i. they live together (whether or not they are married to each other or have formed a civil partnership⁵ with each other), and
 - ii. the child normally resides with them in the same household; or
 - B. where sub-paragraph (a) above does not apply, the parent, being either the father or mother of the child, with whom the child normally resides and the spouse or civil partner (if any) of that parent where the spouse or civil partner normally resides with that parent and the child in the same household; or
 - C. where neither sub-paragraph (a) nor (b) above applies, the child's guardian appointed in accordance with section 5 of the Children Act 1989⁶ and the spouse or civil partner (if any) of that guardian where the spouse

⁴ 2008 c.22

⁵ Within the meaning of the Civil Partnership Act 2004 c.33

⁶ 1989 c.41 as amended

normally resides with that guardian and the child in the same household;
or

- D. where none of sub-paragraphs (a), (b) and (c) above applies, the person with whom the child resides in accordance with either:
- i. a subsisting residence order made under section 8 of the Children Act 1989; or
 - ii. any subsisting court order (other than a residence order) which specifies who is to have actual custody or care and control of the child,

and the spouse or civil partner (if any) of that person where the spouse or civil partner normally resides with that person and the child in the same household; or

- E. where none of sub-paragraphs (a) to (d) above applies and where the child is not looked after by a local authority for the purposes of section 22(1) of the Children Act 1989, the person with whom the child normally resides in accordance with any informal care or fostering arrangement, and that person's spouse or civil partner (if any) where the spouse or civil partner normally resides with that person and the child in the same household.

24. Where a child, aided pupil or grant holder –

- A. either has no parents as defined in paragraph 23 or the school or CAT is satisfied that no such parents can be found, and
- B. is either looked after by a local authority or provided with accommodation within the meaning of section 105(1) of the Children Act 1989,

he shall be treated as a child whose parents have no income for the purposes of the Music and Dance Scheme, and any reference to his parents shall be construed as a reference to the authority or organisation which looks after him or provides him with accommodation.

25. The local authority is normally regarded as the parent of any child placed with foster parents. Such a child is treated for the purposes of the Scheme as one whose parents have no income and the child may be given an aided place with full fee remission. In these cases a pupil will also be entitled to maximum incidental expenses including free school meals.
26. References in this policy to a person who normally resides with a child mean, in relation to a child who is an aided pupil boarder at a school, a person with whom the child normally resides when he is not at school.
27. Where a child has been adopted pursuant to an order of a court of competent jurisdiction, references in paragraph 23(a) and (b) to “father” and “mother” shall

be construed as references to the adoptive parents and not his natural parents.

28. The requirements of this section shall also pertain in respect of any similar provision pursuant to the Adoption and Children Act 2002 (2002 c.38).
29. In the case of a natural parent who normally lives with, but is not married to, or formed a civil partnership with, a person who is not the child's mother or father, an application and declaration of income will be required from the natural parent alone.
30. In cases where there is actual joint custody or care and control (e.g. the child spends 6 months with the mother and 6 months with the father) then both family units should be treated as parents. In the majority of joint custody cases a child will live with one parent but may spend some time (e.g. school holidays or weekends) with the other. In such cases the relevant income is that of the parent with whom the child normally lives.

RELEVANT INCOME PERIOD

31. Declarations of income and other information must be provided in respect of both parents (where applicable), and the MD1/NGMD1 should be signed by both. Where only one signature is given parents must state the reason for this. Schools/CATs should check that it is because either there is only one parent as defined above, or else that it would not be practicable at the time to obtain the signature of the second parent. In the latter instance, a declaration of the second parent's income must still be included in the form.
32. Determination of eligibility on income grounds is based on the income declaration on MD1/NGMD1. The notes below cover advice on the income figures to be returned and guidance on the determination of "relevant income" and the assessment of parental contributions. Schools/ CATs will wish to satisfy themselves that the amounts declared by parents accord with the notes defining income and that they are consistent with the information given about occupation.
33. Declarations of income should normally refer to the relevant tax year, 6 April to 5 April, and in relation to a particular school year, "preceding financial year" means the financial year preceding that school year (e.g. for the 2024/25 school year, the preceding financial year is 6 April 2023 to 5 April 2024).
34. Where the parents' income is wholly or mainly derived from the **profits of a trade, business or profession**, schools/CATs should accept declarations related to the accounting year of that business or profession which ended within the financial year for which income would normally be declared. In such cases the preceding financial year will be construed as the accounting year ending before 6 April in the calendar year in which the school year begins. For example, if the parent's accounting year is 1 February to 31 January, the preceding financial year (for the school year 1 September 2024 to 31 August 2025) is deemed to be 1 February 2023 to 31 January 2024.

35. As a general principle, definitions of income follow as closely as possible those used by HMRC (Inspector of Taxes) for income tax purposes and parents must declare gross income before tax from **all** sources (except as specified below). In **all** cases any income from outside the UK should be included. **No deductions** should be made in respect of any allowances made for tax purposes - specifically: personal allowances; pension or superannuation contributions; donations direct to charities; covenants; loan interest that qualifies for tax relief; redundancy payments; and income from abroad.

CALCULATING RELEVANT INCOME

36. The amounts quoted for **EARNED INCOME** should include:

- A. **the gross amount of salaries, wages** and pension, including earnings from part-time employment, statutory sick pay, statutory maternity pay, any sum received as a bonus or commission and profit-related pay (or pay received by virtue of a "salary surrender/sacrifice scheme"). Any "benefits in kind" such as free or subsidised housing, meals or company cars must also be declared, at the amount agreed with Her Majesty's Customs and Revenue (HMRC);
- B. **profits from a trade, business or profession**, at the amount of gross income declared on a completed self-assessment tax return to HMRC for the year in question (deductions should be made only in respect of capital allowances, losses⁷ and stock relief). The amount of any balancing charges or stock relief recovery charges should be included. Where a parent is self-employed, drawings should not be included as part of relevant income as these could be unused profits from previous years. If, however, a parent is a company director (whether of his own company or not) drawings from that company may or may not be taxable. If the relevant self-assessment returns are not available, provisional figures should be derived from the audited business accounts or from a statement signed by the parents' accountants.
- C. grants or allowances made toward boarding school fees (including from parents who are members of HM Forces).

37. **Members of the clergy** must include any monies received in addition to their stipend (i.e. the amount shown on form P60) for which they receive separate payments - e.g. for weddings, funerals etc. Income from these sources will be assessed separately on their relevant self-assessment tax return. The provision of accommodation for the clergy is also generally regarded as being non-taxable provided they are a full time minister of religion and it is customary for the

⁷ HMRC (Inspector of Taxes) allows a business loss to be dealt with in several ways, the most common being to offset against other tax liabilities for the year in question or to be carried over and set against either profits or other tax liabilities in a subsequent year. In such cases school/CATs should ascertain which course of action is being followed and determine relevant income on the same basis.

accommodation to be provided (for example, a Vicarage). If, however, the minister of religion is a teacher with accommodation provided, this is regarded as a benefit in kind for tax purposes. The clergy do not, however, need to include any non-taxable part of the heating, lighting, cleaning and garden upkeep allowance as part of their total income where their duties are that of a full time minister of religion. This exemption applies to members of the clergy who have earnings at an annual rate (including all of their benefits in kind) of less than £8,500. If you are in any doubt about whether specific benefits in kind are taxable or not see the HMRC website at <https://www.gov.uk/expenses-and-benefits-a-to-z>.

38. Where the amount of earned income declared does not include superannuation or other **pension contributions** paid during the year, the total of those contributions must be declared separately.
39. Amounts declared for **occupational pensions** should not include tax-free lump sum payments made from pension funds.
40. Sums received from **Tax-free State benefits as stated on [Income Tax: Tax-free and taxable state benefits - GOV.UK \(www.gov.uk\)](#)** should be entered separately, but will **not** count towards parents' relevant income:
41. Income from the **letting or sub-letting of property** must be declared at the amount of the net profit agreed with HMRC (Inspector of Taxes). As a general rule, the amount of any Loan Interest must be included in the calculation of relevant income even though this may be shown as deductible for tax purposes on a parent's self-assessment return. This is because such an amount is regarded as part of normal outgoings for the purposes of the MDS. However, tax relief on Loan Interest to purchase business premises (i.e. premises which are not a person's main residence or premises/property used solely for business purposes) *can* be deducted from the relevant income calculation. There are also occasions when Loan Interest can be used to reduce the amount of the income from the letting or sub-letting of property which is declarable as relevant income. If you are in any doubt, you are advised to include the Loan Interest in the relevant income calculation in the first instance and to advise the parent to provide a document from HMRC which proves that Loan Interest relief has been given under a section of the Income and Corporation Taxes Act 1988 other than section 370. In this event you should approach the DfE for further guidance.
42. **Rent-a-Room Relief** was introduced to provide for tax relief to be given to owner occupiers who let furnished accommodation in their only or main home. It is available only where the letting income for a particular tax year is liable to tax (formerly under Schedule D) and applies to gross rents received by an individual up to a certain limit. Tax relief given under these arrangements should be disregarded for the purposes of calculating relevant income. Evidence of income received under any such letting arrangement should be obtained from either audited accounts or the relevant rent book(s). All income from such lettings must form part of parents' total income.
43. Parents should declare the gross amount of any interest from savings actually

received during the financial year. Schools/ CATs should, if necessary, gross up any net amount in order to assess income. The necessary adjustment for such income is to multiply the figure entered by 100/80. However, non-taxpayers are able to apply to have their interest paid tax-free. In such cases the formula will not need to be applied but schools/ CATs may ask to see documentary evidence that the parent or child receives the interest free of tax.

44. All other investment income (e.g. share dividends, interest on annuities and insurance policies) should be entered gross of tax. Interest from National Savings & Investments should also be declared. If tax was deducted at source, parents are asked to add in the amount of tax paid or tax credit notified.
45. The amount of any **inheritance or legacy** does not itself count as relevant income but any interest received in the financial year under consideration as a result of the investment of an inheritance or legacy does count as relevant income. The value of any shares received as an inheritance or legacy would not count as relevant income but if these were to be sold there could be a declarable capital gain and could count as relevant income. Please check at [Tax when you sell shares - GOV.UK \(www.gov.uk\)](http://www.gov.uk) for further information on allowances.
46. Income from maintenance or child support agreements should be entered. Parents receiving maintenance payments or child support under a court order or separation agreement or arrangements made by the Child Maintenance Service (CMS), (or predecessor body) should enter the amount required to be paid in the year. If parents receiving such payments recover tax on the payments made, this should be declared.
47. Amounts entered under "any other income" in row m) should include any sums received as capital gains, redundancy payments, "golden handshakes", company allowances towards school fees etc. However, **the following should be disregarded** when relevant income is calculated:
 - A. redundancy payments of up to £30,000⁸ (if payments received exceed that amount the excess over £30,000 should be recorded in row l) and included in the relevant income);
 - B. the amount of any income in the form of a tuition fee loan, maintenance loan, maintenance grant, special support grant or disabled students' allowances that is received by a parent who is a student;
 - C. any allowance paid by an adoption agency under the Adoption and Children Act 2002 or previous similar enactment as amended;

⁸ Consideration should be given to when people are made redundant they often receive one cheque which covers the redundancy payment but also other payments, e.g. payment of salary, bonuses, holiday pay, superannuation lump sums, etc. Some of these payments are taxable and some are not. If in any doubt, you should request a breakdown of the payments made and of the taxable position of each element.

- D. custodianship, residence or similar allowances or assistance paid by a local authority under the Children Act 1989 as amended;
- E. capital gains up to £6,000 per parent (in the 2023-24 financial year);
- F. any amount paid in respect of foster children;
- G. awards and expenses received from the National Youth Dance Company.

CURRENT YEAR ASSESSMENTS (CYA)

48. Parents may wish to contact to their school/CAT to ask for a CYA if they know or suspect that their income will be appreciably lower in the next tax year than it was in the last. You may need to ask for documentary evidence of the circumstances that are expected to lead to the reduced income and agreement is not automatic.
49. A decision to allow a CYA can be taken by schools/CATs in some circumstances but in other circumstances the Department's permission must be sought.
50. The types of case in which a decision to allow a CYA to be adopted can be taken by schools/CATs are ones in which:
- A. one of the grant holder's parents has died after the relevant income has been calculated on a preceding financial year basis but before the end of the current financial year. If schools/ CATs are satisfied that the income of the surviving parent for the whole of the current financial year plus that of the deceased parent for part of it is likely to be less than their aggregated income in the preceding financial year you can accede to a parent's request for a change to a CYA; or
 - B. Schools/ CATs are satisfied that the relevant income in the current financial year is, as a result of some event beyond the control of the grant holder's parent(s) (other than the breakdown of a marriage), likely to be not more than 85% of that in the preceding financial year.
51. The types of case in which schools/ CATs are required to seek the DfE's permission for a CYA to be adopted are ones in which:
- A. the request for a CYA is prompted by the breakdown of the parents' marriage after form MD1/ NGMD1 has been signed with the result that they now live apart; and
 - B. the anticipated fall in income is by less than 15% but the parents maintain that financial hardship would nevertheless result from a contribution towards the fees assessed by reference to the preceding financial year's income.
52. CYAs are for cases of genuine and unexpected financial need. As a general principle, whether the events were beyond the control of the grant holder's

parents (other than the breakdown of a marriage) will be scrutinised in decision-making. For example, asset sales (including of property) are highly unlikely to be considered beyond the control of the parents, so will not normally be grounds for a CYA.

53. Correspondence to the DfE concerning requests for a CYA should include detailed information about all the circumstances, financial or otherwise, which have led to the request being made. In cases involving marriage breakdown, the exact date of the parents' separation should be stated. Documentary evidence of the circumstances should not be provided to the DfE but should be requested and retained by the school/CAT.
54. In all cases involving a CYA, the income must be determined initially on a provisional basis and the determination reviewed when information on actual income in the current year becomes available. Schools/ CATs are strongly advised to make parents aware at the outset that a CYA will be finalised on the basis of actual income and that although this may result in their receiving a refund of overpaid parental contribution if the income has been overestimated, any underestimate of their relevant income will result in their having to make an additional payment to bring the parental contribution up to the required level. Schools/ CATs should also explain to parents that, once advantage has been derived from such a CYA, assessments must continue in subsequent years on the same basis unless the Department directs otherwise. Requests from parents who have benefited from a CYA to be allowed to revert to the normal previous year basis for assessment must be referred to the DfE.

ESTIMATES OF INCOME

55. Some parents (generally only those who are self-employed) may not be able to provide a declaration of actual income in the preceding financial year before the beginning of the school year. The rules provide that in those circumstances the school/CAT may make a provisional assessment pending submission of actual figures.
56. Where estimates are provided, parents need to supply the most recent figures available and make clear when final figures will be available. Schools/ CATs should ensure that they follow up all on all estimated figures.

INCOME OF DEPENDENT CHILDREN

57. Parents are asked to declare the gross amount of all unearned income received by children (including the grant-holder) living in the same household who are wholly or mainly financially dependent on them. Unearned income means any income that does not arise from gainful employment. Parents need not declare dependent children's income that is in the form of:
 - a) support from the 16-19 Bursary Fund (in England) or Education Maintenance Allowance (in Scotland, Wales or Northern Ireland);

- b) student finance e.g. tuition fee loan, maintenance loan, maintenance grant, special support grant or disabled students' allowances;
- c) awards, scholarships, prizes and expenses including any received from the National Youth Dance Company or a National Youth Music Organisation.
- d) **Tax-free State benefits as stated on [Income Tax: introduction: Tax-free and taxable state benefits - GOV.UK \(www.gov.uk\)](http://www.gov.uk)**

ALLOWANCES FOR DEPENDENT CHILDREN AND OTHER RELATIVES WHO LIVE IN THE SAME HOUSEHOLD

58. Parents are asked to list all dependent children and other relatives living in the household. Children who are students in higher or further education may normally be regarded as dependants in this context, even though for much of the year they may be living away from the household.

59. Children in receipt of one or more of **Tax-free State benefits as stated on [Income Tax: Tax-free and taxable state benefits - GOV.UK \(www.gov.uk\)](http://www.gov.uk)** will be considered as a dependant

60. The following groups do not count as dependants:

- a) children or other relatives who do **not** normally reside in the same household as the parents and the grant applicant;
- b) relatives (excluding children) in receipt of **Tax-free State benefits as stated on [Income Tax: Tax-free and taxable state benefits - GOV.UK \(www.gov.uk\)](http://www.gov.uk)** as per paragraph 59; ***children in receipt of one or more of the listed benefits are to be counted as dependants.***
- c) foster children;
- d) spouses or civil partners.

MAINTENANCE AND CHILD SUPPORT PAYMENTS ALLOWANCES FOR DEPENDANTS WHO DO NOT LIVE IN THE SAME HOUSEHOLD

61. Parents are asked to record any child support or maintenance payments they make in compliance with an existing Court Order, a separation agreement (e.g. Deed of Separation) or under arrangements made by the Child Maintenance Service (CMS) (or any predecessor body). Where a parent makes **voluntary** payments, these should not be taken into account.

62. Any such payments **received** should be declared along with other income.

63. The CMS calculates the amount of Child Support Maintenance that absent parents

must pay towards the upkeep of their child or children. It is not now normally possible for parents who do not already have a Court Order for child maintenance to go to court to obtain such an order. Instead, parents will need to apply to the CMS for an assessment of Child Support Maintenance. Such maintenance should normally be declared whether or not the assessment is being complied with but exceptions to this rule can be made. Parents should be advised that the CMS has a collection service if they are experiencing problems with the receipt of maintenance.

64. A maintenance payment for the purposes of the national grants scheme means a periodical payment which is made by one of the parties concerned to or for the benefit and for the maintenance of the other party, or by one or both parents or another person for the benefit, maintenance or education of any of the children. Any tax recovered on these payments must be declared.
65. Maintenance payments or separation allowances under a Court Order or separation agreement should normally be declared as income regardless of whether or not the order/agreement is being complied with, but exceptions can be made. Permission should be sought from the Department to waive the rule in exceptional cases such as those, for example, in which the person who should be complying with the Order or agreement has taken up residence abroad and has therefore placed himself or herself beyond the reach of the British judicial system or in which a Court or the CMS has notified in writing its acceptance that the person cannot pay the fees because of some financial misfortune such as redundancy or bankruptcy.

VERIFICATION

66. Parents or Guardians **must** provide documentary evidence of the earned income figures entered on form MD1/NGMD1. Schools/CATs should ensure that copies of the following documents are available if required by the DfE for inspection, as part of the annual Audit Survey of the MDS for example:
 - a. where income is derived from salary, wages, etc:
 - i. Form P60 (or similar document) supplied by employers at the end of the financial year;
 - ii. in cases where parents are in receipt of profit-related pay (or of payments made by virtue of a "salary surrender scheme"), an authenticated statement from the employer. Form P60 may indicate where such schemes are in operation, for example by recording a high level of salary/pay for NI purposes);
 - iii. in cases where Form P60 does not show superannuation contributions and gross pay (in addition to taxable pay), a copy of the relevant March pay advice;
 - iv. in cases of salaried directors of private limited companies, the

relevant self-assessment return.

b. where parents are self-employed:

- v. copies of the completed self-assessment return made to HMRC and of a form such as Form SA302 which HMRC issues to confirm its agreement with the figures on the self-assessment return or to record any amendments which it has made to them;
- vi. if the completed self-assessment return is not yet available, a copy of the audited business accounts for the previous financial year or for the business accounting year which ends in that financial year, or a statement by the parents' accountants. The actual profits for that year must be computed and stated for the purpose of national grant assessments. Previous tax assessments may also be submitted for making comparisons. Where final figures for the financial year in question are not available schools/CATs will need to undertake provisional assessments of income pending the submission of final accounts.

Note: Drawings from a business should be treated as follows. Where a parent is self-employed, drawings should not be included as part of relevant income as these could be unused profits from previous years. If, however, a parent is a company director (whether of his or her own company or not) drawings from that company may or may not be taxable. In such cases HMRC should be asked to provide a statement showing taxable and non-taxable drawings.

67. Schools/CATs should determine what documentary evidence is required to verify income from pensions, investments or other unearned income and ask parents to supply copies or provide documents for inspection.

68. **Self-assessment of income tax.** For the majority of assessments where parents are self-employed, schools/CATs may need to make a **provisional assessment** (using figures from the last available audited business accounts etc. as a basis) until such time as the assessment can be finalised. Ideally, the finalisation should be based on figures shown on a form such as form SA302 issued by HMRC. This validates a self-assessment return by confirming the amount of tax due and paid and parents should be asked if they are able to provide such confirmation. The ideal situation is one in which parents are able to do so but if they cannot, an assessment can nevertheless be finalised because a completed self-assessment return forms the legal charge to tax and can be used as a proper basis for determining income.

69. **"Benefits in kind"** are also subject to the self-assessment rules and figures will need to be derived from the relevant parts of a self-assessment return to HMRC. Employers are required to provide employees who receive certain benefits in kind with a form P11D showing a breakdown of those benefits and schools/ CATs

should ask to see such a form. For employees, tax on benefits in kind will usually be collected through an adjustment to the tax code. If the value of any benefits a parent gets from his employer exceeds his personal allowances, he or she will normally receive a tax code "K" and the excess over his allowances will be added to the income each pay period.

70. Parents must supply copies of documentary evidence to support all entries of income. Schools/CATs should retain copies of all documentation relating to major sources of income for at least 2 years for possible inspection by the DfE but with regard to minor sources of income they have a choice; they can either retain copies of the documentary evidence or can inspect it, check that the amounts agree with entries on the MD1/NGMD1, sign the form to certify that satisfactory corroborative documentary evidence has been seen, and return the documents to the parents.
71. Parents should also provide evidence of other income, including proof of taxable and non-taxable social security benefits listed, evidence of the income of the dependants listed, evidence of dependants (for example birth certificates) listed and evidence of any payments included in the form. The school/CAT reserves the right to seek additional evidence if they deem it necessary.

DECLARATION

72. Both parents (where applicable) should sign the declaration on the form.
73. The parents' signature on the MD1/NGMD1 may take the form of a physical signature on paper, or a digital signature (including those made with a stylus/ touch screen, digital image of the signature, or typed signature).

CALCULATION OF RELEVANT INCOME (FOR SCHOOL/CAT GUIDANCE)

74. The total of relevant income is arrived at by adding the amounts entered on the form for the income of parents and dependent children, and by making the following deductions:
- A. any income from non-taxable social security benefits listed;
 - B. an allowance in respect of each child or other dependent relative living in the household,
 - i. **for CATs only**- including the child in respect of whom the application is being made, who, at the time that the relevant income is calculated, is wholly or mainly financially dependent upon the parent(s)
 - ii. **for schools only**- other than the child (the Aided Pupil) in respect of whom the application is being made, who, at the time that the relevant income is calculated, is wholly or mainly financially dependent upon the parent(s);

- C. for each parent in receipt of the blind person's tax allowance;
- D. the net amount of any maintenance payment or separation allowance paid under a court order or separation agreement or in accordance with arrangements made by the CSA;
- E. any income entered for-
 - redundancy payments of up to £30,000. If payments received exceed that amount the excess over £30,000 should be included in the relevant income
 - the amount of any income in the form of tuition fee loan, maintenance loan, maintenance grant, special support grant, disabled students' allowances that is received by a parent who is a student;
 - any allowance paid by an adoption agency under the Adoption and Children Act 2002 or previous similar enactment;
 - custodianship, residence or other allowances paid by the local authority under the Children Act 1989;
 - capital gains up to £6,000 (for each parent) for tax year 2023-2024;
 - any amount paid in respect of foster children;
 - the 16-19 Bursary Fund paid in respect of children who remain at school or in education after the age of 16.

DECISION ON AMOUNT OF GRANT

75. The cost of the provision will not necessarily be the same as the size of the maximum grant. In some cases, the cost of all training and other activities the child wishes to do may exceed the maximum grant (for example where the child is a multi-instrumentalist). In other cases, the cost of the child's activities may be less than the size of the grant to which the child is entitled. In either case, the size of the grant remains the same.
76. Where the cost of provision exceeds the grant, parents (even parents of maximum grant holders) should be asked to contribute the additional cost. If they are unable or unwilling to do so, the provision agreed for the child should be reduced so that it is affordable within the amount of grant.
77. Where the cost of provision agreed for the child is less than the grant, parents will not be expected to make any contribution. Unused grant by one child may not be reallocated to another child.
78. Schools/CATs may wish to advise parents who believe they might have difficulty

making their assessed contribution as to possible sources of help, either from the centre itself or from other (charitable or sponsorship) sources.

79. It should be noted that a grant holder may use some of the grant for training-related activities out with the schools/CAT (e.g. private coaching, performing, musical discovery) provided that such activities form part of their ITP.

PART-YEAR PUPILS

80. Pupils who join or leave the scheme after September 2024 can be recorded in one of two ways:
- A. As a trial for academic year 2024/25, they can be recorded in a supplementary collection of the MD2/NGMD2 stencil in February 2025. A new stencil should be created and submitted with only joiners on it. Schools/CATs should manually calculate the parental contribution and bursary required, proportionate to the duration of the year that the child has been on the MDS. The grant funding agreement will then be adjusted, and the difference reflected in payment 3. This method is optional but encouraged.
 - B. Alternatively/ additionally to option A, schools/CATs may instead wait until the Annex Gi (MD3/NGMD3), submitted by February 2026, to record part-year students, claiming for in-year joiners and reconciling for in-year leavers.

INDIVIDUAL TRAINING PLANS (ITPs) AND DfE RETURNS

81. ITPs must be drawn up for each grant holder, and will need to be agreed by the students, teachers, parents/guardians and CAT, with provision for independent mentoring support as appropriate. The DfE is not prescribing ITPs in detail as these will differ somewhat from one CAT to another. The DfE may request copies of all national grant holders' ITPs or copies of a sample of ITPs at any time.
82. CATs will need to ask parents and grant holders to sign up to an ITP which will set out the programme of training, study, work and related activities that the grant holder will undertake. Opportunities should be provided to review progress and help the child achieve their best. CATs may directly or indirectly employ third parties to deliver supplemental training activities that are detailed in the ITP. The DfE will ask CATs for progress reports on individual grant holders to ensure that they are receiving the training they need and that the grant is being used in the way for which it is intended. The request for progress reports will be issued towards the end of the school year in question.
83. CATs are requested to provide NGAC and/or the DfE with whatever other periodic returns and information the Secretary of State may require. In most cases this will be covered by the above-mentioned forms but other statistical and factual returns may also be required from time to time.

OTHER FEE SUPPORT

84. Where a parent has an insurance policy which is specifically for the payment of school fees then the amount to be declared is the amount payable under the policy for the academic year for which the application is being made. If the policy provides for payment of **part** of the school fees for a child, then only that part of the fees which is not to be paid by the policy will be regarded as the basis for calculating fee remission under the Scheme. Where the policy covers the **whole amount** of the tuition fees a first-time applicant is not eligible for selection for an aided place. Where an insurance policy providing for payment of the whole amount of a pupil's school fees comes into existence for a pupil awarded an aided place in an earlier school year the pupil will continue to be regarded as holding an aided place (unless the parents voluntarily relinquish it) but will be ineligible for any fee remission or for the reimbursement of any other expenses by the Scheme for as long as the insurance policy continues to provide for the payment of the entire fees.
85. The types of policy concerned are those which stipulate that the company shall pay the school fees, in whole or in part, to the school in respect of the pupil. This does not apply to other types of savings plans the taxable benefits from which should be included in the relevant income calculation.

TRAVEL GRANTS

86. Grant for the cost of journeys between home and school is limited to travel by the following means:
- A. public transport (train, bus, boat, air or hovercraft services available to the public);
 - B. transport arrangements approved by the Department at the request of a school (see paragraph 91 below);
 - C. transport provided by a local authority (Section 32 of the Transport Act 1980, as amended, provides that local authorities may convey other passengers on their school buses and may charge for that service).
87. For **day** pupils, assistance may not be given unless the journey to school is more than 3 miles (4.8 kilometres) by the shortest practicable walking route. Where journeys are in excess of 25 miles (40 kilometres) each way, grant will be payable only for the proportion of the cost of the journey related to 25 miles (40 kms.) travel each way (e.g. for a journey of 34 miles (54.4 kms.), grant would be payable on 25/34 (40/54.4) of the cost).
88. For a **full boarding** pupil, grant may be paid towards expenditure reasonably incurred in respect of up to twelve single journeys made in the school year to or from his home or to visit parents, guardians or other relatives. If reduced or concessionary fares are available for such journeys, full use should be made of

them and, if they are available but not taken advantage of, schools should only reimburse pupils at the reduced rate. Where the expenses are in relation to travel by air, any excess over the cost of available boat, hovercraft or train services (including any concessionary fares) should be disregarded. If a pupil travels to a place other than his home, schools should reimburse the pupil the costs of travel to his home if that is a lesser amount and, if a pupil travels outside the British Islands (as defined in paragraph 12), only the costs of travel between the school and the port, hover-port, airport or Channel Tunnel terminal should be reimbursed.

89. For a **weekly boarding** pupil, grant may be paid in respect of all journeys between home and school (provided that the journey to school is more than 3 miles (4.8 kms.) by the shortest practicable walking route and subject to the conditions in paragraph 86). Where journeys are over 50 miles (80 kilometres) each way, grant will be paid for a proportion of the cost of the journey (e.g. for a journey of 62 miles or 99.2 kilometres grant would be payable on 50/62 (80/99.2) of the cost.
90. Grant may also be paid towards expenditure reasonably incurred in respect of up to three return journeys within the British Islands made in the course of a school year by a pupil **visiting universities and/or other HE or FE institutions** for interview or, at the institution's invitation, other pre-selection gatherings for prospective students. Grant is usually limited to the cost of journeys by public transport but is sometimes paid in respect of journeys by private car, as described in paragraph 91. No assistance is available towards the costs of overnight accommodation. When the expenses are in relation to travel by air, any excess over the cost of available boat, hovercraft or train services (including any concessionary fares) should be disregarded. Pupils should be asked to provide their letter of invitation from the institution concerned when claiming grant. For grant purposes, these costs should, if applicable, be aggregated with the eligible costs of transport between home and school and the travel grant payable will be the total cost less any required parental contribution.
91. The transport arrangements likely to be approved by the Department are those where a school itself operates, or is a party to the operation of, special bus or mini-bus services. Applications to the Department for approval of such travel arrangements should include brief details of the transport arrangements and information about the fares charged. The Department will not normally approve transport by private car for the purpose of paying travel grants, although exceptions may be made in cases of severe physical disability or where no other usable means of transport exists. Where travel by car is approved by the Department in response to a written request from a school, schools should note that the public transport rate (currently 45p per mile) applies only to journeys when the aided pupil is in the car and is not payable in respect of a parent's journey home after delivering the pupil at school or back to the school to collect the pupil.
92. The amount of travel grant (per pupil) will be the actual cost in the school year of the eligible journeys described above less any parental contribution which may be

required, assessed in relation to the relevant income for the aided pupil in question. The amount of the parental contribution due is set out in the appropriate table. Where parents are claiming travel by public transport for 2 or more aided pupils the amount of parental contribution in the appropriate column is for **each** pupil. However, in cases in which travel grant is claimed in respect of travel by more than one aided pupil by private car, neither the public transport rate of 45 pence per mile nor the parental contribution is to be multiplied by the number of pupils transported.

93. Travel grant may be paid by a school at any time during the school year or immediately before it but any overpayments or underpayments resulting from payments on account must be corrected by payments to or from the school within 3 months of the amount of travel grant due being finally determined.
94. When paying travel grants, schools should satisfy themselves (e.g. by recourse to declarations signed by parents, inspection of tickets, and/or consultation of local transport fare tables) that:
 - a. the journeys undertaken were eligible for grant aid;
 - b. the mode of transport and route used and the fares incurred were reasonable in the circumstances and took full advantage of any reduced fare levels available such as season tickets and children's fares. Pupils are expected to make use of a Student's Railcard or similar special offers the cost of which may be included in the travel costs for which grant is payable where its use results in a net saving in the amount claimed.
